- **Soft Skills:** Leadership, Critical Thinking, Team Collaboration, Time Management, Agile Methodology, Client Communication

EXPERIENCE

VetConsultancy | Founder & Full Stack Developer

July 2025 – Present

- Architected a scalable MERN stack platform to digitize veterinary operations, engineering distinct interfaces for 3 user roles (Veterinarian, Client, Admin) that reduced manual administrative tasks by 40%.
- Engineered a low-latency messaging infrastructure using Socket.IO, handling 500+ concurrent connections with sub-100ms latency to facilitate seamless remote consultations.
- Implemented Role-Based Access Control (RBAC) using JWT and Bcrypt, achieving 100% data integrity and preventing unauthorized access across all accounts during beta testing.
- Optimized frontend performance by deploying modular React components and Tailwind CSS, achieving a 30% reduction in First Contentful Paint (FCP) and boosting page load speed by 2 seconds.
- Orchestrated complex backend logic using MongoDB aggregation pipelines to manage priority queues, eliminating 100% of appointment requests without scheduling conflicts.
